

How to become a member of the NSCDA

- The first step is to contact the **Membership Chair at vtslp@me.com.**
- She and her committee will help fill out your lineage papers.
- This requires establishing your lineage to someone in a Colonial State who provided service to our country prior to 1776.
- There are 13 Colonial States and the District of Columbia.
- Once complete, your papers will go to the Vermont Registrar, who, if she finds them in order, will forward them to your Colonial State.
- Once approved by the Colonial State, you will be given a number. This number will have an "A" for Associate Member.
- The Vermont Registrar will assign a VT membership number, and then you are a Vermont Dame!
- Vermont is your Corporate State.
- There are fees for genealogical research at the Colonial state level as well as a one time Vermont initiation fee.
- Annual dues are collected each January.

Mission Statement

The National Society of The Colonial Dames of America actively promotes our national heritage through historic preservation, patriotic service and educational projects.

A Brief History

The National Society of The Colonial Dames of America promotes appreciation for the people, places and events that led to the formation and development of our country. We are an unincorporated association of Corporate Societies in 44 states with more than 15,000 members. The NSCDA has been a leader in the field of historic preservation, restoration and the interpretation of historic sites since its New York Society first undertook the preservation of the Van Cortlandt House in 1897. The National Society headquarters is located at Dumbarton House, a Federal period house museum on Q Street NW in Washington, D.C.

Great American Treasures

greatamericantreasures.org

Great American Treasures are stories – BIG and small – of how America became America. At our more than 60 historic sites, you'll meet heroes and scoundrels, pioneers and patriots, and the everyday folk you won't find on stamps or in history books – people who made indelible contributions to the world we know. And best of all, you'll meet them in their natural surroundings.
